## Visitors' Interest in Products:

**25,9%**

Plastic products and their recycling

**22,9%**

Machinery and equipment for the production of plastics and rubber

**17,9%**

Other

**17,4%**

Raw and auxiliary materials

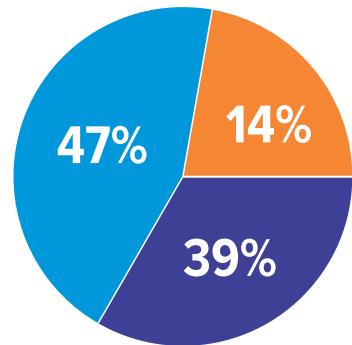

**15,9%**

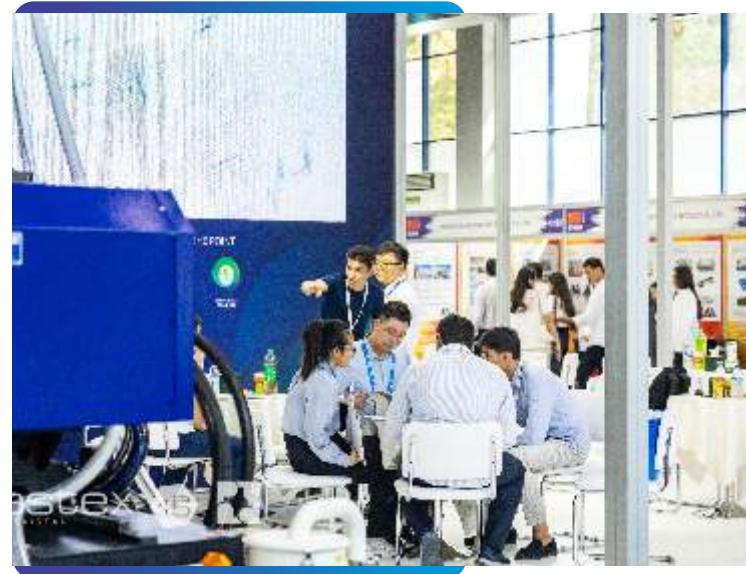

Detergents and petrochemistry

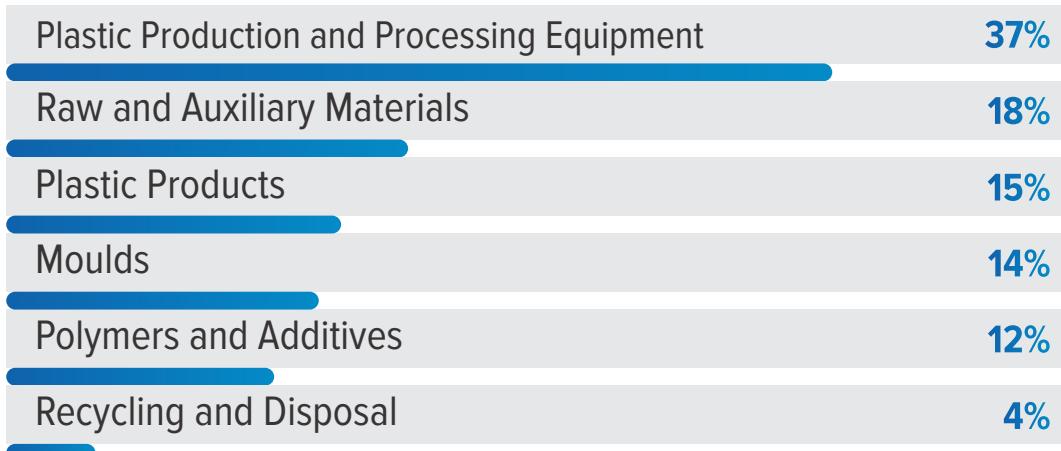

# Exhibitor Statistics

- Exhibiting for over 5 years
- 2-5 years
- First-time exhibitors

## Exhibitors represent the following sectors:

# Exhibitor Statistics

**81%**  Met their existing clients and partners

**80%**  Found new clients and business partners at the exhibition

**55%**  Would recommend participation in the exhibition to their partners

**39%**  Confirmed participation in 2026

# Exhibition Nominees

## ◆ Bright Debut Participation

- ♦ Marun Petrochemical
- ♦ Tabriz Petrochemical
- ♦ Petro Polyplast

## ◆ Best Stand Design

- ♦ Tederic
- ♦ Zhong Yun
- ♦ Gamma Polymers
- ♦ Emplastmer

## ◆ Best Product Presentation

- ♦ Xin Dacheng

## ◆ New Technology Implementation

- ♦ Sedor Foreign Trade

## ◆ Exhibition Development Contribution

- ♦ Haitian

## ◆ New Product Presentation

- ♦ Borche

## ◆ Advanced Technology Presentation

- ♦ JWell Machinery

## ◆ Best Exhibition Promotion

- ♦ Meridian-A

# Participant Feedback

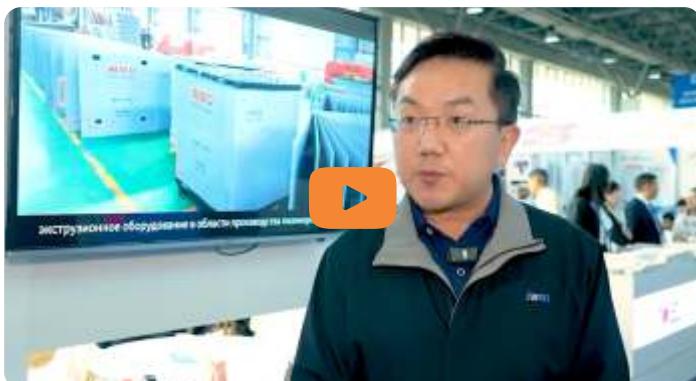

“

**Valentin Wang,  
Eastern Europe Market Manager,  
China Jwell Intelligent Machinery**

Jwell is a professional extrusion equipment manufacturer based in Shanghai, China. We have been participating in Plastex annually for the past 15 years, as Uzbekistan remains a key market for our company, particularly in the extrusion equipment segment.

We observe steady economic growth in the country, and Plastex continues to serve as an effective platform for business development — even during the pandemic. Each year, we meet new clients not only from Uzbekistan but also from Kazakhstan and Tajikistan. We look forward to continuing our participation at the exhibition in 2026.

“

**Ali Angaji,  
Director General, Petro Polyplast (PPP)**

Our company is participating in Plastex for the first time, and we are deeply impressed. With Uzbekistan's rapidly growing market, the demand for raw materials is significantly higher than in many other countries.

Within the first two days of the exhibition, we have signed three contracts and expect to conclude more upon our return. These agreements will enable us to expand production and increase exports to the Uzbek market. We would certainly recommend Plastex to our partners and look forward to returning in 2026.

# Participant Feedback

“

**Saliha Nazarova,  
Managing Manager, Sedir / Yizumi**

We are the exclusive distributor of the Yizumi brand in Central Asia. Since 2022, we have been actively operating in the region and regularly exhibiting at Plastex. As an event sponsor, we value this platform for its strong professional audience and excellent networking opportunities.

This year's exhibition exceeded expectations — visitor numbers grew significantly, and we successfully signed several contracts. We sold three complete units of equipment showcased at our stand. We are delighted with the results and look forward to participating again in 2026.

“

**Jianren Xu,  
Director General, Haitian International**

Haitian is the world's largest manufacturer of injection moulding machines. We have been participating in Plastex for over 15 years, and the exhibition consistently proves to be a highly specialized and productive platform that supports our business growth in the region. The Uzbek market is particularly attractive due to its strategic location in the heart of Central Asia and its steady economic expansion.

We started operations in Uzbekistan in 2008 and have maintained an active presence ever since.
